

The public airwaves belong to the people, not to any specific corporation. No media company should be allowed to violate election laws by forcing their local stations to air one-sided material.

We, the people, provide these airwaves, and they belong to us. Corporations throwing their weight around is not only wrong, it violates the principles this country was founded upon.

Corporations ARE NOT people, despite what many think, and they have not the right to voice opinions. Sinclair Broadcasting should be prevented from dictating what local stations can show.

Thank you.
